

“

We own two apartments renovated by Ray Dragiew and his staff and we live happily in both. The quality of the work is great, and the look is beautiful. Renovations are always exciting and time-consuming.

What distinguishes the company in our eyes is the absolute reliability, constant accessibility and the willingness to discuss our thoughts and questions again and again and to stand with us - with the expert support in the selection of materials, in the organization of the individual work steps, the coordination of the trades and the communication with authorities, as well as a lot of individual decisions that had to be made.

We were always extensively and thoroughly advised and felt well supported in our wishes for our apartment and the implementation.
